

5. Rules for Combined Event Running and Shooting.

Part A

5.1 Sphere of application

The following rules must be applied at the combined event in Category "A" and "B" competitions.

5.1.1 Individual competition

The Men and Women competition for Senior, Junior and Youth A consists of:

Handicap start, approx. 20m run, 5 Targets down (time limit 1'10" and 1'30" for Youth A); 1000m run; 5 Targets down (time limit 1'10" and 1'30" for Youth A); 1000m run, 5 Targets down (time limit 1'10"); 1000m run.

Youth B, Boys and Girls competition consists of:

Handicap start, approx 20m run, 5 Targets down (time limit 1'30"); 1000m run; 5 Targets down (time limit 1'30"); 1000m run.

5.1.2 Relay competition (team of 3 pentathletes)

The Men and Women Competition for Senior, Junior, Youth A and Youth B consists of:

Handicap start, approx. 20m run, 5 Targets down (time limit 1'10"/1'30" For Youth A/B); 1000m run; 5 Targets down (time limit 1'10"/1'30" For Youth A /B); 1000m run; for each of the 3 pentathletes.

The hand over zone must be organised on the start/finish area.

5.1.3 Relay competition (team of 2 pentathletes)

The Men and Women Competition for Senior, Junior, Youth A and Youth B consists of:

Handicap start, approx. 20m run, 5 Targets down (time limit 1'10"/1'30" For Youth A/B); 1000m run; 5 Targets down (time limit 1'10"/1'30" For Youth A/B); 1000m run; for each of the 2 pentathletes.

The hand over zone must be organised on the start/finish area.

5.2 Authorities

5.2.1 The LOC must appoint a **Combined Event Director**, who is overall in charge of the Combined Event and:

- i) must appoint two deputy combined event directors one for the running section and one for the shooting section;
- ii) is a member of the Competition Jury;
- iii) is responsible for the correct conduct of the combined event;
- iv) permits the pentathletes to start their warming up.

5.2.2 **Deputy Combined Event Director for the Shooting (Shooting Director)** being in charge:

- i) to appoint and supervise: Range Officers, Shooting Judges, Target Officers, Equipment Control Officers and the Range Personnel;
- ii) of the correct conduct of the shooting event;
- iii) of the rapid correction with the appointed Range Officers of any equipment failures and for ensuring that the necessary experts and material are available to operate the range;
- iv) inform the pentathletes and coaches of the final minute and 30 seconds remaining of warming up time on the shooting range, which ends 3 minutes before start of competition;
- v) of communicating all reported irregularities and penalties to the TDs/NTOs.

5.2.3 **Range Officer** appointed one per 9 to 12 firing points and is responsible for:

- i) checking that the pentathletes uses the right firing points and the right zeroing target;
- ii) checking the names and start numbers of the pentathletes to ensure that they conform with the combined event schedule, start list, scorecards and range register;
- iii) controlling the pentathletes' clothing (shirts with name, numbers, armband, headphone, etc.);
- iv) verifying that the pentathletes' pistols have been inspected and approved by the Equipment Control Section;
- v) checking that the pentathletes assume the correct shooting position;
- vi) checking that the pentathletes do not disturb the other pentathletes;
- vii) applying and checking in collaboration with the Shooting Judge any 10 seconds penalty imposed on the pentathlete at their shooting station.
- viii) checking that during warming up, the pentathletes do not change the trigger weight;
- ix) in case of pistol malfunction, give to the pentathlete the authorisation to use the reserve pistol;
- x) supervising the correct operation of the targets;

- xi) maintaining order on the range, with particular attention to safety;
- xii) ensuring the recording of all irregularities, disturbances, penalties;
- xiii) communicating all irregularities and penalties to the Shooting Director.

5.2.4 **Target Officers** must

- i) prepare the shooting targets before the competition;
- ii) assist the Shooting Director during all the competition.

5.2.5 The Shooting Director must appoint one **Shooting Judge** per 4 shooting stations in case of electronic targets and every 2 shooting stations in case of manual targets. They are responsible for:

- i) observing all shots fired;
- ii) controlling that the pentathlete load each shot with the pistol in contact with the shooting table;
- iii) after each shooting series, checking if the pistols are safe (a pistol is safe when placed on the table pointing at the targets, unloaded in an open position);
- iv) checking that the pentathlete resets the Target before the start of each shooting series; (in case of mechanical target)
- v) informing the Shooting Director immediately about any infringement of the rules;
- vi) applying and checking in collaboration with the Range Officer any 10-second penalty imposed on the pentathlete at their shooting station.
- vii) If the competition is organised with mechanical targets they must also check the 1'10" / 1'30" For Youth A and B) shooting time for each shooting series. The Shooting Judge will implement the following procedure: Starting the chronometer when the pentathlete touches the pistol, informing the pentathlete at 10 seconds before the 1'10" :1'30 time limit expires, and giving the signal to 'GO' to the pentathlete when the 1'10"/ 1'30" For Youth A and B) time limit has expired in case the pentathlete has not hit all 5 targets.

5.2.6 **Deputy Combined Event Director** for the Running (**Running Director**) being in charge to:

- i) appoint and coordinate the activities of all the Running Officials: Course Judges, Marshall, Starter, Deputy Starters, Starter's Assistants, Arrival Judges, Timekeepers, Recorders, Announcers, Last Penalty Stop Area Judges and Penalty coordination Judges.
- ii) supervise the building of the course and the conduct of the event;
- iii) ensure that the course or track and all equipment, including marketing banners, are in accordance with the UIPM Rules;
- iv) ensure that the UIPM Rules are observed and has the authority to penalise pentathletes or other persons that infringe these Rules;
- v) decide the event termination when pentathletes are lapped by the leader. This rule is valid only for Category "A" competitions and never for Junior, Youth A or Youth B competitions. This rule is not applicable in Individual Competitions, which includes Team Events at the same time.
- vi) appoint special judges with the task to coordinate the penalties from the starting area, the shooting range penalties and the last penalties stop area.

5.2.7 The **Course Judges** are assistants of the Running Director without authority to make final decisions. They shall be placed by the Running Director in such positions that they may observe the running closely and in case of a foul, deviation of the course or unauthorised assistance, or violation of these rules by another person immediately report this to the Running Director in writing. The Course Judges are responsible for informing the Running Director if an athlete is lapped.

5.2.8 The **Marshall** has full charge of the start/finish area and the shooting range area, and must not allow any person other than the officials and competing pentathletes to enter or to remain there. The Marshall can be assisted by one or more assistants.

5.2.9 The **Starter** has entire control of the pentathletes whilst on their marks and is the sole judge of any fact connected with the start of the race. They are responsible for synchronising their own, the Timekeepers' and Deputy Starters' watches and for giving the start signal to the first pentathlete at the moment they are due to start and informing them prior to the start about the remaining time to start. The Starter will apply false start penalties and inform the Announcer and/or Penalty Co-ordinator.

- 5.2.10 The **Deputy Starters**, one for each start line, are under the supervision of the Starter. Their duty is to control that each pentathlete starts according to their start time. The Deputy Starters must not have physical contact with the pentathletes.
- 5.2.11 The **Starter's Assistants**, one for each start line, must check the pentathletes in the start-lanes and make sure that the pentathletes are lined up in correct order, in right time, wearing the correct clothing, with the name and the national code, the numbers properly fastened on both chest and back. Any violation of these rules must be reported immediately to the Running Director.
- 5.2.12 The **Arrival Judges** are responsible for registering the arrival order of the pentathletes at the finish line; two groups of two judges that work independently are needed.
- 5.2.13 The **Timekeepers** must use their stopwatches or manually operated electronic timers with or without digital readouts. All such timing devices are termed "watches" for the purpose of these Rules. Whether an automatic timing is used or not, there should always be three Timekeepers, one of whom shall be the **Chief Time Keeper**. Their responsibility is to record the times of the pentathletes.
- 5.2.14 The **Announcer** is responsible for informing the public of the names and numbers of the pentathletes taking part in the combined event and other relevant information such as intermediate times. The Announcer is charged with broadcasting the first part of the count down to the start of the event up until one minute to departure, after which the countdown is under the control of the Starter. The results (placing, times and points) must be announced at the earliest possible moment after receipt of the information.
- 5.2.15 The **Last Penalty Stop Area Judges**, of which there should be two, stays at the special penalty area located not further than 700m from the start/finish line ready to apply penalties that cannot be applied at the shooting station.
- 5.2.16 **Equipment Controllers**, 3 persons who are responsible for testing the weapons and other shooting equipment and clothing.
- 5.2.17 **Penalty Co-ordinator Judge** to co-ordinate the penalties from the Starting Area, the shooting range, and the last penalties stop area.

5.3 Inspection of the Combined Event Course

- i) The course consists of an integrated air pistol shooting range equipped with mechanical falling targets or electronic targets, a start area not more than 20m from the first shooting station, a running course of 3 laps of 1000m each lap and a last penalties stop area.
- ii) The LOC is responsible for providing an acceptable and safe combined event course free of obstacles and spectators. It must be designed so that there is a minimum risk of injury to the pentathletes; therefore no sharp turns or steep declines must be included. The course can be laid out on any kind of surface or surfaces.
- iii) The race should be run in an area that will assist and encourage the access of spectators.
- iv) At all official UIPM Category "A" and "B" competitions a UIPM TD/NTO must inspect and validate the length and path of the course and make changes if necessary. At Olympic Games and World Championships, this inspection must take place at least two days before the start of the competition, in all other competitions, at least one day before the start of the competition.
- v) At least 30 minutes before the start, the course must be marked so it is possible to start the warming up.
- vi) At least 5 minutes before the start all necessary restrictions must be settled.

5.4 Safety Regulation

- i) Safety Regulations are to be established by the LOC in accordance with the respective national laws of the organising country. The LOC is responsible for informing all event participants of these rules and providing for their application.
- ii) The safety of all event participants and spectators requires self-discipline, careful attention to pistol handling and caution in moving about the competition area by everybody concerned. It is the responsibility of the pentathletes and team representatives to ensure they fill their pistols and cartridges safely and efficiently.

- iii) In the interest of safety, the UIPM TD/NTO, Shooting Director or Range Officers may stop the combined event at any time. Pentathletes and team officials must immediately notify Range Officers of any situation that may be dangerous or which may cause an accident.
- iv) Dry firing, which means the release of the air pistol trigger mechanism by use of a fitted device which enables the trigger to be operated without discharging any of the propellant air or gas, and aiming exercises are permitted, but only upon authorisation of the Combined Event Director or Shooting Director and only on the firing line.
- v) Pistols must not be touched when any person is forward of the firing line.
- vi) Air and CO² pistols must be made safe by opening the cocking handle and/or loading part.
- vii) Whilst the pentathlete is on the firing point, the pistol must always be pointed in a safe direction. In the combined event area, when the pistol is not on the firing point, it must always be in its box.
- viii) Pistols may be loaded only at the firing point, and only after the command “warming up LOAD” is given.
- ix) If the command “STOP” is given, all pentathletes must stop shooting immediately and place the pistol on the table in a safe direction and not cocked.
- x) After the last shot of each shooting series the pentathlete must ascertain before leaving the firing point, and the Range Officer will verify that there are no pellets in the chamber; the pistols must be made safe by opening the cocking handle and/or loading part.

5.5 **Clothing**

- i) A pentathlete must wear athletic clothing.
- ii) The pentathlete must wear a top with their name clearly visible and professionally made on the reverse side of the top, below which is the NF code, of a size between 7-12cm and in a contrasting colour to the colour of their shirt.
- iii) Pentathletes must compete with athletics shoes, with or without spikes. Any spikes restrictions must be advised by the LOC in their invitation letter.
- iv) The LOC is responsible for providing every pentathlete with two start numbers.
- v) The numbers must be worn on the chest and back and be visible in all weather conditions. Size 1 (maximum height 15cm and width 10cm) shall be worn on the Back and Size 2 (maximum height 20cm and width 20cm) on the Front.
- vi) The pentathlete or team who is in first place before the combined event shall be assigned the No. 1, the second place pentathlete/team, No. 2, and so on.
- vii) No pentathlete will be allowed to take part in a competition without the appropriate numbers.
- viii) It is forbidden for pentathletes to modify the dimensions (size and width) of the start numbers given by the LOC.
- ix) Wristbands taping or similar items that might provide support to the shooting hand are prohibited on the hand, elbow and arm.
- x) A sport watch is permitted on the non-shooting hand.
- xi) Radios, tape recorders or any type of sound-producing or communication systems are prohibited. Only sound-reducing devices may be worn.
- xii) It is strongly recommended that the current Olympic and World Champions wear some item of clothing, vest or armband, which identifies to the spectators their Champion status.

5.6 **Equipment Control**

Competition materials/equipment and clothing includes all of the materials, equipment, competition gear and clothing which the pentathlete uses during the combined event, including advertising.

- i) The equipment inspections normally must be organised following the start of the riding event or after the second event in case of semi finals. Pistols can be controlled the day before but the pistols will be kept by the LOC or sealed until warm-up.
- ii) Pentathletes shall report at the materials/equipment and clothing inspection area at the scheduled time in order to have their equipment checked and marked, and their clothing inspected.
- iii) A Maximum of 1 reserve pistol or cylinder per pentathlete is to be brought to the Equipment Control Area and clothing checkpoint for inspection and marking. The reserve pistol must be taken directly to the range and deposited closed in the pentathletes box at their own shooting station. The range staff will not permit the deposit the reserve pistol after the warming up time is ended.
- iv) The Equipment Control Area consists of 3 Equipment Controllers who are responsible for testing the weapons and other shooting equipment.

- v) The Equipment Control Area must provide a complete set of gauges and instruments for equipment control before the event.
- vi) The pentathlete must use the same pistol for all shots of the event.
- vii) In case the pistol ceases to function the pentathlete can use another pistol but this reserve pistol must have been previously inspected by the Equipment Control Section.
- viii) Pistols are checked as to calibre, single shot and dimensions and are subject to a trigger test only before the warming up. All accepted pistols are indicated as being allowed for competition.
- ix) The appropriate trigger test weight that is used for the official test must be available to the pentathletes on the range before the event. When testing the weapons the propellant charge must be activated.
- x) All approved equipment must be marked with a seal or sticker and recorded on the control card. The Equipment Control Area must register the name of the pentathlete, the make (manufacturer), type and serial number of the pistol. The approval is valid only for the respective event.
- xi) After the equipment has been approved, the pistol must not be modified nor adjusted at any time prior to or during the event in any way that would conflict with the Combined Event Rules. Nor must it be exchanged.
- xii) Any alterations or exchange will incur a penalty. If there are any doubts regarding any alteration, the pistol must be returned to the Equipment Control Area for re-inspection and approval.
- xiii) The Equipment Control Section is responsible to deliver the two start numbers to the pentathletes.
- xiv) Appropriate Co2 and air must be available on the weapon control area for the pentathletes.
- xv) During Relay competition (of two or three pentathletes) only the competing pentathlete's pistol can be laid on the shooting range table; only the pentathletes are authorised to move their pistols from the pistol storage under the table to the shooting table.

5.7 Schedule of the event

5.7.1 Warming up, Zeroing and Preparation Time

- i) Pentathletes have 20 minutes for the Combined Event warm up. The warming up can start only after the Combined Event Director has given the specific command "Start Warming up Load". If the zeroing targets are placed on the real target the 20 minute warm up must be divided into two sessions: 5 minutes on the zeroing/paper targets, 1' minute break to change the targets, 15' minutes on the normal target.
- ii) During the warm up period the pentathletes can run and shoot an unlimited number of shoots
- iii) Zeroing should only take place on the range using 10m air pistol paper targets. Paper targets must be placed at the same level and at the same distance from the firing point on the right side of the competition target.
- iv) The shooting station corresponds to the pentathlete's starting number. Pentathlete No.1 will shoot at station No.1, pentathlete No. 2 will shoot at station No. 2 and so on.
- v) After the warming up and before the start signal the pistols must be on the assigned Shooting Station, not charged and without pellets in the chamber and the reserve pistol must be closed in its box.
- vi) At the Shooting Station, pentathletes can use water and towels which must be kept under the table with the reserve pistol and any binoculars used during warm up.
- vii) During the warming up the coaches can assist and communicate with the pentathletes from a specially marked area for coaches outside of the Shooting Stations and the running corridor.
- viii) Shooting warming up session must be closed 3 minutes before the start of the combined event competition and coaches must clear the Field of Play.
- ix) The Shooting Director will inform the pentathletes of the last minutes and 30 seconds remaining of the shooting session warming up.

5.7.2 Organisation of the Combined Run Shoot Event

- i) The Combined Event takes place with any 4.5mm calibre compressed or CO2 single shot air pistol, fired at a target from a distance of 10 metres.
- ii) The pentathlete must stand with both feet on the ground, without support, completely within the shooting station. The entire pistol must be held and fired with one hand only;
- iii) The pentathletes are responsible for shooting on the correct target;
- iv) It is compulsory to load each shot with the pistol in contact with the shooting table;
- v) The Shooting competition is in 3 series. Each series consists of hitting 5 targets with an unlimited number of shots in a maximum time of 1'10"/ 1'30" for Youth A and B; on a target of

dimension 59.5mm. If after 1'10"/ 1'30" for Youth A and B; one or more targets have not been hit, the pentathlete can start on the running leg without being penalised providing the pistol is made safe in accordance with Rule 5.4.

- vi) Each pentathlete/team must always use their same shooting station.
- vii) The pentathletes must run a short distance to their shooting station and start the first shooting series of 5 targets.
- viii) Shooting station N°1 must be the farthest away from the starting gates.
- ix) Only after having hit 5 targets using an unlimited number of shots after a time limit of 1'10"/ 1'30" for Youth A and B;, can the pentathlete start from the shooting station to perform each running leg of 1000m;

After the first leg, the pentathletes return to their shooting stations, where they must reset their target, (only the pentathlete is authorised to reset their target) and then start the second shooting series that consists of hitting 5 targets using a unlimited number of shots in the time limit of 1'10"/ 1'30" for Youth A and B;;

After the second shooting series the pentathletes perform the second running leg of 1000m. After the second leg, the pentathletes return to their shooting station, where they must reset their target, and then start the third shooting series of hitting 5 targets using an unlimited number of shots in the time limit of 1'10"/ 1'30" for Youth A and B;;

After the third shooting series the pentathletes perform the third and final running leg of 1000m to the finish line.

- x) A pentathlete must follow the course from crossing the start line until crossing the finish line.
- xi) A pentathlete must complete the course.
- xii) When the pentathlete is lapped by the competition leader, their combined event is terminated. In this case they will be ranked in the last position. In case more than one pentathlete is lapped, the first pentathlete lapped will be placed last and the second pentathlete lapped will be placed in the penultimate place and so on. This rule is not applicable in Individual Competitions which involve a Team Event at the same time.
- xiii) In case the points are more than those of a pentathlete, or pentathletes, who were not lapped, there will be an adjustment to the points.
- xiv) When automatic judging and timing equipment is provided, it must be used to determine the winner, placing and times for each athlete. The results and time so determined has precedence over the decisions of Timekeepers.
- xv) In the case of a breakdown or mechanical failure, the timekeepers' decisions will take precedence and reference must be made to all manual times recorded.
- xvi) Athletes or coaches have 5 minutes time after the competition has ended to return to the range to tidy up and remove their weapons.

5.7.3 The Start

- i) The handicap start must use three gates: two gates and one additional Penalty (P)Gate.
- ii) The handicap must be calculated on the basis of the previous event results (Fencing + Swimming from qualification competitions or Fencing + Swimming + Riding from Finals).
- iii) Pentathletes with a handicap after the previous events of more than 2 minutes 30 seconds will start in a pack start. However, in the final lap they are required to stop at the "last penalty area" for the difference in the time of 2.30 and their handicap.
- iv) The Combined Event has 4 starts. The handicap start at the beginning of the competition and the 3 different starts from the shooting line if the athletes do not hit the five targets, after 1'10", or 1'30" in case of youth athletes.
- v) In the event of a false start from the shooting line, the same rules for a false start will be applied e.g.40 points in the event of a false start and disqualification in the event of a blatant attempt to start too early.
- vi) The pentathletes are responsible for knowing their own start time and for being at the start line on time.
- vii) The Announcer will announce "10 minutes" and "5 minutes" prior to the start of the combined event;

Three (3) minutes before the start, the Announcer will declare warming up on the shooting range finished; Two (2) minutes prior to the start, all the pentathletes must be at the start area and the Starter/Starter Assistants will begin lining up the pentathletes.

One minute prior to the start, all the pentathletes must be at the corresponding gates and in the order of their start time.

- viii) The Starter will announce - **One minute to start**, thirty seconds, 20 and 10 seconds to the Start;
 After the OK has been given by the Timekeepers and the Combined Event Director, the Starter will tell the first pentathlete "**Take your Marks**", followed by the start signal;
 All timing equipment will start at the start signal; At the start area, there must be a start clock placed so that it is easily readable from the start line; The start time for the first pentathlete will be 00.00. Pentathlete N° 1 starts at time 'zero'; pentathlete N° 2 starts at 'x' seconds depending on the handicap, and so on.
- ix) In all UIPM Category "A" Competitions video recording is compulsory at the start/finish line.
- x) In Relay competitions the Handicap start is by using two gates but with two different starting lines (distance between the two lines 2.5m).

HANDICAP START -RELAY	
Men/Women, Senior, Junior, Youth A	
Gate A	Gate B
Teams 1/3/5/7/9/11/13/15	Teams 2/4/6/8/10/12/14/16
Start line 0 for 0p. 4p. 8p. 12p.	Start line 0 for 4p. 8p. 12p.
2,5 meters behind start line 0	2,5 meters behind start line 0
*-2p (= 0.5 second)	*-2p (= 0.5 second)
Start line for 2p .6p. 10p. 14p.	Start line for 2p .6p. 10p. 14p.

5.7.4 **False start**

- i) The Starter/Announcer must immediately announce to the pentathlete and the spectators the pentathlete that has started too early and inform them of their false start.
- ii) If a pentathlete starts late, they will not be penalised, but their time will be taken from the moment they should have started according to the start list.

5.8 **Scoring**

5.8.1 **Individual Competition**

Men and Women Senior, Junior, Youth A:

2000 points are awarded for a time of 12:30 minutes. Each second faster or slower than the prescribed time is worth +/-4 points.

Legal effect only for 2009: 1:30 minutes (360 points) shall be deducted by all 2009 official results.

5.8.2 **Individual Competition Youth B.**

Men and Women Youth B: 2000 points are awarded for a time of 10 minutes. Each second faster or slower than the prescribed time is worth +/-4 points.

5.8.3 **Relay Competition (team of 3 pentathletes)**

Men and Women Senior, Junior, Youth A and Youth B:

For team of 3 athletes, 2000 points are awarded for a time 25min. Each second faster or slower than the prescribed time is worth +/-4 points.

Legal effect only for 2009: 3 minutes (720 points) shall be deducted by all 2009 official results.

5.8.4 **Relay Competition (team of 2 pentathletes)**

Men and Women Senior, Junior, Youth A and Youth B:

For team of 2 athletes, 2000 points are awarded for a time 17.00min. Each second faster or slower than the prescribed time is worth +/-4 points.

Legal effect only for 2009: 2 minutes (480 points) shall be deducted by all 2009 official results.

5.9 **Penalty Stop Areas**

- 5.9.1 The Penalty Stop Area will be located on the shooting station.

5.9.2 A Last Penalty Stop Area, located a minimum of 700m from the start/finish line must be prepared in case of penalties from the last shooting series that cannot be applied at the shooting station and in case of penalties for incorrect clothing, modification of start number and false start. Athletes are notified of a penalty by the Combined Event Authorities. It is the pentathletes responsibility to go to the penalty area.

5.10 **Malfunctions**

- i) Malfunctions are not taken into consideration
- ii) Should a pistol cease to function, the pentathlete, with the agreement of the Range Officer may use the reserve pistol, or another cylinder, that must have also been approved by the Equipment Control Section.
- iii) If a shot has not fired due a malfunction, the pentathlete may use the reserve pistol without interrupting their competition.
- iv) If the reserve pistol also does not work the pentathlete will be either eliminated or can wait at the shooting station until the 1'10" (1'30" in case of Youth athletes) shooting time has expired before starting the running leg.
- v) With Electronic targets the judges must simultaneously manually check the time (1'10"/1'30").

5.11 **Time Adjustments and Responsibility**

In those cases where a pentathlete loses time due to a target error which is not their fault or a target malfunction, the UIPM TD/NTO in cooperation with the Shooting Director shall make an appropriate time adjustment.

5.12 **Spare Targets and Insufficient Targets**

5.12.1 The LOC must guarantee provision of 2 reserve targets located after shooting station No.1 (numbered: R1 and R2).

5.12.2 In case of insufficient number of targets for all the pentathletes, the combined event can be organised in two or more series with the top pentathletes competing in the last series.

5.13 **Unauthorised Assistance**

- i) During the race no pentathlete is allowed to accept any physical assistance or refreshment.
- ii) The running of any other people with or behind a pentathlete qualifies as unauthorised assistance. A hands-on medical examination by official medical personnel during the progress of the event and verbal or other communication from a person who is not inside the course is not considered as unauthorised assistance.

5.14 **Infringements and penalties**

5.14.1 A pentathlete is penalised by a time penalty of **Ten Seconds** for each of the following offences:

- i) contravening clothing regulations
- ii) modifying the dimensions of the start numbers
- iii) false start
- iv) not placing the pistol safely on the table after the warming up ended and after each shooting series
- v) not loading each shot with the pistol in contact with the shooting table
- vi) if coaches during the warming up assist the pentathletes outside of the designated coaches area, first time warning second time 10 seconds penalty.
- vii) Pentathletes must not remove their pistol(s) from the box/case before the official warming up period has started. The first breach will result in a warning. In the event of a second offence a 10 seconds penalty will be applied.
- viii) Penalty must be paid according to appendix 5D.

5.14.2 A pentathlete is penalised by elimination for shooting in the wrong target.

5.14.3 A pentathlete is **eliminated** for

- i) starting running leg before the shooting time has expired without having hit all 5 targets
- ii) not completing the course
- iii) jostling, running across or obstructing another pentathlete so as to impede their progress
- iv) deviation, deliberate or not, from the course
- v) unauthorised assistance, if not disqualified, upon discretion of the Competition Jury
- vi) using an unapproved pistol
- vii) not stopping at the last stop penalty area when instructed by an official.

5.14.4 Pentathletes are **disqualified** for

- i) modifying or adjusting their officially approved pistol so that it violates the rules
- ii) exchanging their pistol in violation of the rules
- iii) a blatant attempt to start too early.

5.14.5 **Combined Event termination**

In case a pentathlete is lapped by the leader, their combined event will be terminated and they will be ranked in last position (see Rules 5.7.2 xii, xiii, xiv). This rule is valid only for Category "A" competitions and not for Junior or Youth competitions. Additionally, this rule is not applicable in Individual Competitions, which involve a Team Events at the same time.

Part B

B.5.15 General

- i) The combined event venue is the site on which the combined event competition is conducted, and consists of the combined event shooting range and the running course. LOC is responsible for providing a safe and acceptable Combined Event Course.
- ii) There must be the start/finish area, shooting range, last penalties stop area, relay hand-over zone, running course 1000m lap, judges area, coaches area, media and photographers area, spectator areas, as well as buildings and offices necessary for the UIPM and LOC.
- iii) The venue must be technically suitable, according to these rules, to allow all the types of combined event competition to be held. It must offer the best possible viewing of the competitions to spectators, and fulfil all the requirements of TV coverage.
- iv) The start/finish area, shooting range, relay hand-over zone, as well maximum part of the 1000m running lap shall be located on level ground and close together, so as to provide good viewing of competition for the majority of the spectators.
- v) These areas and critical parts of the course must be fenced off in order to prevent pentathletes from being impeded or going off course and to prevent access by unauthorised persons. However, the height and extent of the fencing must be minimised as much as possible to avoid interference to TV coverage.
- vi) There must be sufficient space for pentathletes and competition officials to conduct their required activities and adequate room for team support staff, media, photographers and spectators, and enough space for TV camera crews and their broadcasting facilities without the broadcasting interfering with the competition.
- vii) A sheltered area for the pentathletes must be provided by the LOC to protect them from the weather.
- viii) Zones for TV coverage of the competitions will be established on the course, in consultation with the UIPM TD/NTO and TV advisor responsible for the event. The primary purpose of the zones shall be to ensure the best possible coverage of the competition and in particular to prevent obstruction of the TV image by non-competing persons.
- ix) Adjacent to the finish zone, a fenced-off area (Mixed Zone) has to be established for TV company representatives, media and photographers to have close contact with the competitors for interviews and pictures after they finish.
- x) An exclusive seating area for VIPs and Sponsors must be located by the LOC in the place most appropriate for optimal viewing of the event.

B.5.16 Range Requirements

- i) The ranges can be indoor or outdoor and must be constructed so that direct sun does not disturb the pentathletes.
- ii) The shooting range must be built in such a way it can guarantee the safety of the pentathletes, coaches, judges and spectators.
- iii) The shooting range must protect the pentathletes from the wind, also lateral wind, using closed walls on the two lateral sides.

- iv) The lateral wall must include the pentathletes shooting station of minimum one metre in length and in total the lateral wall must be not less than 11 metres.
- v) The background area behind the targets must be non-reflecting, medium, neutral colour.
- vi) The shooting range must protect the pentathletes from the rain using special roof coverage and a waterproof box to protect the pistol, water, towels and binoculars of the pentathletes located under the shooting table.
- vii) The pentathletes shooting area (minimum 1m and maximum 1.30m wide) must be clearly defined with visible lines to show the sides and the back line which is the start and finish line for each shooting series.
- viii) The shooting range must be prepared in such a way the spectators can enjoy the competition and watch the finish, so with the finish line near the shooting range.
- ix) During both training and competition, competitors must enter the range from one side and exit other side.
- x) There must be sufficient space (minimum 4m) behind the firing points to allow the pentathletes, before and after each shooting series, to run to their shooting station without disturbing the other pentathletes and to permit the Range Officials and the UIPM TDs/NTOs to perform their duties.
- xi) Targets must be marked with numbers corresponding to their shooting station number. The numbers must be large enough to be easily seen under normal shooting conditions with normal vision from the appropriate shooting station.
- xii) The shooting station must be marked with number corresponding to the firing point number.
- xiii) The targets must be fixed in such a manner that they have no appreciable movement.
- xiv) The height of the target centre must be within the following height measured from level of the floor of the firing point:
 - Standard Height Variation: 1.40m +/- 0.05 m
 - Horizontal variation for target centre: 0.25 m.
- xv) The firing point must be equipped with:
 - a table or bench, about 0.7m - 0.8m high;
 - the table must have a protection for the pistol and the pellets in case of rain (waterproof box) or a place under the table
- xvi) A wind directional sign must be clearly visible from all shooting stations. At competitions and official training, 3 wind flags must be installed one at each side of the shooting stations and one in the middle. The flags must be placed so that the top edge of the flag is at the same level as the bottom edge of the targets and can not obstruct a direct line of sight to the targets.
- xvii) Athletes shall maintain a tidy shooting bay with only essentials on the table.

B.5.17 The Running Course

- i) The course must be so clearly marked and defined that at no time a pentathlete is in doubt how to follow the course.
- ii) The maximum climb of the course is 50m.
- iii) The total climb is measured from perpendicular angle from the start area and adding together the total metres of climb from each level.
- iv) The first 50m and the last 50m of the course shall be straight and flat.
- v) The course must be marked with a signpost at 500m.
- vi) The total course must be wide enough to permit two runners to pass each other at any point on the course.
- vii) The start and finish line must always be in the same area.
- viii) The course must be clearly marked with flags, tape and/or marks on the ground so that the direction of the course is always visible for the pentathletes. All angles on the courses in competitions category "A" and "B" have to be marked by a clearly visible tape 0.5-1m above the ground, 10m before and 10m after the corner. It is the obligation of the UIPM TD/NTO to check the course. At UIPM World Championships the course has to be marked by a clearly visible tape 0.5–1m above the ground on both sides of the course.
- ix) The start line and the finish line must be marked by a white line at least 5cm wide on the ground at the place of the start and the finish. It is recommended that a gantry (arch, gate, etc.), vertical poles or something similar also mark the start line and the finish line.
- x) In the Relay competition the start line and the finish line must be a minimum 5m wide. 10m on each side of the finish line must be set for a hand-over zone of 20m length. Thus the dimension of the zone will be 20m x minimum 5m. This zone must be clearly marked by demarcation lines.
- xi) The finish area behind the finish line must be large enough to permit the LOC to take care of the

- pentathletes having completed the course.
- xii) Access to the finish area with the timing device and timekeepers must be suitably restrictive so as not to allow access by pentathletes, media or spectators. Particularly attention must be used on the running shooting zone, to avoid collision between the pentathletes that enter on to the running course after the shooting phase.

B.5.18 Target Requirements

Only targets approved by UIPM can be used at Category “A” and “B” competitions.

B.5.18.1 Electronic Targets

- i) Electronic targets consists of one black single aim and 5 green/red lamps indicators.
- ii) Shooting zone- for competition, target (shooting zone) and indicators must be separated. Target standard dimension: 250mm diameter circle. The target valid zone is 59.5mm. The target system must be clearly visible to all the spectators. Targets must be of a non-reflecting colour and material.
- iii) Indicators Wavelength: Red colour must be 660nm and green colour 525nm. (+/- 5nm.) Indicators must be installed minimum 1m up to the shooting zone. For “A” Category competitions, indicators must be 55mm diameter with minimum of 140° viewing angle. For all other competitions, 55mm diameter or 26mm diameter with minimum 90° viewing angle. Background of the indicators must be a dark colour. Distance between each red/green lamp must be 40mm.
- iv) The targets have to be fixed to a rack or wall (height 2.3m approx) and guarantee the centre of the aim is at 1.40m height. If the wall is not in wood or plastic, then some fixation able to receive a screw of 6mm diameter must be prepared for each station at 1.30m and 2.10m height.
- v) The shooting time starts when the target is hit by the first bullet (valid or not).
- vi) Targets must be able to be used without any computer connection required.
- vii) Targets input power must be in the range 90-240 AV. The power cable must be 3*2,5mm² section with a waterproof box equipped with a 20A security. This box has to be fixed on the back side of the wall at 2m height. A power backup system (minimum 750VA) must be provided by LOC in case stadium/arena is not already equipped.
- viii) Targets must be usable under all weather conditions, including sunny weather.

B.5.18.2 Mechanical targets

- i) Mechanical falling targets consist of 5 black holes.
- ii) Targets must be of a non-reflecting colour and material.
- iii) Basic mechanical target is of dimension: Length 42cm. Height 15cm Width 15cm.
- iv) The minimum distance between each hole is 8cm.
- v) The target valid zone is 59.5mm.
- vi) The target system must be clearly visible to all the spectators.
- vii) The targets have to be fixed to a rack or wall and guarantee the centre of the aim is at 1.40m height.
- viii) For correct function of the mechanical target, it is absolutely necessary to adjust the target with a level as if not exactly level, the target could have a malfunction and generate wrong or irregular shooting results.
- ix) The reset rope must be brought in a straight line to the pentathlete’s shooting table and fixed there for ease of use by the pentathlete or referee.
- x) The white plastic surface must not be painted. The surface of the matrix might be painted

B.5.19 Air pistol

- i) Only single shot pistol is allowed without any form of magazine or clip.
- ii) The weight of the pistol with all accessories must not exceed 1500 grams. The weight of the trigger pull must have a minimum of 500 grams.
- iii) The overall size of the pistol is limited to those dimensions which will permit it to be enclosed completely in a rectangle box having the inside dimensions of 420mm x 200mm x 50mm. A manufacturing tolerance of + 1.0mm in the dimensions of the box are permitted.
- iv) Ported barrels and performance barrel attachments for air pistols are allowed providing the pistols comply with all other requirements, including dimensions.
- v) No part of the grip or accessories may encircle the hand. The heel rest must extend at an angle not less than 90° to the grip. Any upward curvature of the heel and/or thumb rests and/or downward curvature of the side opposite the thumb is prohibited (see figure).

The thumb support must allow the free upward vertical movement of the thumb. However, curved surfaces on the grips or frame, including the heel and/or thumb rest (see figure) in the longitudinal direction of the pistol are permitted.

B.5.20 Air Pistol Ammunition

Any calibre 4.5mm (.177) projectile made of lead or other soft material is permitted.

B.5.21 Laser system

- i) The combined event may take place using the laser system.
- ii) The laser pistol – only single shot pistols are allowed.
- iii) The laser target must be the same dimension as air pistol targets.

POINTS TABLE

COMBINED EVENT

Appendix 5A

Individual: Men, Women: Seniors, Juniors, Youth A, Youth B
